

SHERWOOD PRIMARY SCHOOL

YEAR 5 REMOTE LEARNING PLAN

Monday 1st March 2021

CORE LEARNING TASK FOR ENGLISH

Today, we will be using our knowledge and experience with Noun Towers, to create some exceptional sentences to use in our rainforest setting description! Follow along with Mrs Sheppard's video and she will show you how to use some of the vocabulary that you have already gathered, to create impactful sentences. We would also like you to watch [this video](#) Which reminds us of how we need to vary our sentences starters. Once you have finished your noun tower sentences, think about how you could change them around to include an -ing or -ed opening clause.

World Book Day 2021

Did you know it was World Book Day on Thursday?! We have a challenge to complete and WE KNOW that Year 5 are going to support! Log onto the [website](#) and grab a copy of the Share a Million Stories Reading Record! Make sure you share at least one 10 min story today and record it! We will be doing the same!

CORE LEARNING TASK FOR MATHEMATICS

This week we are really going to nail the written method for division (chunking). Think back to last week and follow the video which has all of the examples you need to get going again.

Firstly, though, we are going to revisit those pesky Roman Numerals and Arabic numbers, converting between both examples. Think about the rules to follow and what each of the letters represent before setting your hand to completing the examples set.

Continue to watch the video, before completing the division questions on the video.

Don't forget to show your working out and include an appropriate fact box. Emphasis today is making your work even more efficient so we reduce the steps taken.

As always, we look forward to receiving the work completed on Seesaw.

Have a wonderful day.

KEY VOCABULARY

Our spelling focus this week is on suffixes that begin with vowels. For example, -ing, -ed, -er, -en.

We will explore rules for changing the root word if needed and understand more about how these suffixes change the meaning of the root.

Follow Mrs Sheppard's video as she introduces you to the tasks. Don't forget to submit your work on SeeSaw!

WIDER CURRICULUM TASK

P.E

This week we continue our Gymnastics work with Olivia from PNE. Watch and complete the warm up task as it is so important before watching and completing the lesson provided by her for today. You will be looking at different rolls so make sure you complete the activity on a soft floor and with enough space. Next week it will be the real thing.

French

Our French lesson today focuses on recapping the numbers to 20, followed by learning **Le jours de la semaine** – the days of the week! Watch Mrs Sheppard's video, join in and sing the songs and play the games!

The links that you will need are

[Numbers song](#)

[Days of the week song](#)

[Dice link](#)

Plus the chatterbox file is saved on the website! Don't forget to send us an audio recording of you pronouncing the days of the week carefully. Bonne chance!
