

Spring Test 8

Questions, Answers and Topic Information

Read the following instructions or press 'play' ► and listen to the instructions being read from the CD-ROM.

Listen carefully to the instructions I am going to give you. When I have finished reading them, I will answer any questions. You will not be able to ask any questions once the test has begun.

I am going to ask you 15 questions. On your sheet there is an answer box for each question, where you should write the answer to the question and nothing else. You should work out the answer to each question in your head, but you may jot things down outside the answer box if this helps you. Do not try to write down your working because this will waste time and you may miss the next question. For some of the questions, important information is already written down for you on the answer sheet.

I will read each question twice. Listen carefully both times. You will then have time to work out your answer. If you cannot work out an answer, put a cross in the answer box. If you make a mistake, cross out the wrong answer and write the correct one next to it. There are some easy and some harder questions, so do not be put off if you cannot answer a question.

Now pause, or press 'pause' ■■ on your CD player or computer. Ask the children if they have any questions. Once you have answered all the questions, read out the following instructions. Alternatively, play the audio recording from the CD-ROM.

► Now we are ready to start the test.

	Answer	Topic
For this group of questions you will have 5 seconds to work out each answer and write it down.		
1 What is seventeen added to ninety?	107	AS
2 Look at your answer sheet. Circle the pair of numbers that can be added to make one hundred.	20, 80	NPV/AS
3 How many tenths make a whole one?	10	F
4 Take away eight from one hundred and eight.	100	AS
5 Look at your answer sheet. What is the next number in the pattern?	150	NPV
6 Subtract twenty-one from forty-five.	24	AS
7 Write the number that is made from six tens and eight units.	68	NPV
8 Look at your answer sheet. Write the correct symbol in the box between the two fractions.	<	NPV/F
9 Look at your answer sheet. What is the time shown on the clock?	25 past 2 or 2:25	M
10 Double seventy.	140	MD

For this group of questions you will have 10 seconds to work out each answer and write it down.

11 Look at your answer sheet. How long is it from the time on clock A to the time on clock B?	1 hour	M
12 Write the number one hundred and ten in words.	one hundred and ten	NPV
13 Take twenty from forty-two and then halve the answer.	11	AS/F
14 Look at your answer sheet. Tick the shape which has no lines of symmetry.		PS
15 If five crayons fit in a pack, how many packs can you fill with twenty-eight crayons?	5	MD

Now put down your pen or pencil. The test is finished.

NPV = Number, place value AS = Addition and subtraction MD = Multiplication and division F = Fractions
 M = Measurement PS = Properties of shapes PD = Position, direction S = Statistics
