

Make your own wormery

You will need:

- 2-3 earthworms

- 1 litre clear plastic drinks bottle

- Garden soil

- Compost

- Light-coloured sand

- Scissors

- Cling film and an elastic band

- Water

- Leaves

- Paper or card and tape

- 1 With the help of an adult, cut the top off the drinks bottle and remove any labels

- 2 Build up layers of different kinds of soil and sand in the bottle

- 3 Sprinkle fallen leaves over the top and water until damp

- 4 Add your worms!

- 5 Secure cling film over the top to stop your worms escaping. Pierce with tiny holes.

- 6 Wrap the bottle in paper to keep it dark for your worms. You can remove this when you want to have a look at how they've mixed the layers.

- 7 Keep in a cool place and top up with water when needed. Release your worms back into the wild after you've finished your experiment.
