Dinosaur Dig!

We were very excited to arrive at school on Monday and discover three mysterious eggs in our adventure area! We created a nest for the eggs and waited patiently for them to **hatch**. Our predictions were right and inside were three little dinosaurs!

We have been busy learning lots of facts about dinosaurs. We learnt that meat-eating dinosaurs are called **carnivores** and dinosaurs that ate plants are called **herbivores**. We learnt that people who study dinosaurs are called **palaeontologists** and then had a go at doing our very own dinosaur dig!

*All words in **bold** have been special words that we have been trying to learn this week.

Reminders and Requests!

Please can you ensure that children do not bring lip balms to school. We are looking for donations of underpants, knickers, socks and tights for our spare uniform drawers. If you can help us that would be fantastic!

Homework

This week we would like you to practice your drawing skills and draw a dinosaur picture. Think about where dinosaurs lived and what they looked like. You could also label your picture or write a sentence too if you like!

Next Week

Next week we will continue to learn about dinosaurs through the story, 'Tyrannosaurus Drip'. Don't forget that Thursday is **World Book Day**! More information about this can be found on the School website!
