# Sherwood Primary School

## RE Policy

### Sherwood Curriculum Rationale

We aim to provide a creative and challenging curriculum that inspires our children and prepares them for life in a culturally diverse and ever-changing world. High expectations, inclusive approaches and excellent teaching will form the basis of all our work. Our pupils will have the opportunity to explore, ask questions, discover and become resilient, independent learners. Our Curriculum will prepare our children for life-long learning.

Inspire • Explore • Achieve

### Sherwood Values

Teaching and Learning at Sherwood Primary School is underpinned by six core values.

The 6 Sherwood Core-Values are:

- Honesty
- Perseverance
- Respect
- Adventurous
- Aspiration
- Independence

Alongside our core values, we also promote the fundamental British values of democracy, the rule of law, individual liberty, mutual respect and tolerance of those with different faiths and beliefs across the curriculum.

### Purpose of study

Religious Education makes a distinctive contribution to the school curriculum by developing pupils' knowledge and understanding of religion, religious beliefs, practices and traditions, which have an influence on individuals, communities and cultures. It enables pupils to respond to a range of important questions related to spiritual development and the meaning and purpose of life.

## Aims

The aim of Religious Education is:

'To support pupils' personal search for meaning by engaging enquiry into the question 'What is it to be human?' - exploring answers offered by religion and belief.' (Lancashire Agreed Syllabus of Religious Education, 2016)

In this, RE should enable children and young people to:

- be aware that human life is not merely material life, and be open to the possibility of transcendent or spiritual life, exploring such experiences in their own lives and the lives of others.
- approach sensitively and respectfully the beliefs, actions and feelings of believers.
- understand the relationships between the individual and the community in religious life.
- develop appropriate ways of communicating their own thoughts, feelings and responses.
- apply these insights to the development of their own beliefs, values and attitudes.

(Lancashire Agreed Syllabus 2016)

## Organisation

The content of the Religious Education programme at Sherwood Primary School draws on the Agreed Syllabus and the Lancashire Field of Enquiry model, ensuring 'meaningful and child centred RE' for our pupils with the question 'What does it mean to be human?' at its core. The Discovery RE scheme has also been put in place to support planning and teaching, ensuring an inquiry-based approach is taken to learning.

The exploration then requires the following four areas:

- shared human experience - the nature of human being;
- living religious tradition - principal religious traditions encountered in the world;
- beliefs and values - which lie at the heart of these traditions;
- the search for personal meaning – a life long quest for understanding.

The framework for Religious Education in Appendix 1 outlines the provision for Religious Education throughout the whole school, in line with the Agreed Syllabus, and indicates the progression and continuity which has been built into the teaching of Religious Education. The Scheme of Work for Religious Education outlines in detail how Religious Education is planned and taught in each Key Stage and in each Year Group.

At Sherwood Primary School it has been agreed that, the following religions will be studied:

- Christianity 50%
- Islam (Progressed Study)
- Judaism (Progressed Study)
- Hinduism
- Sikhism
- Buddhism

Subject planning and evaluation for work in Religious Education is incorporated into Year Group planning and evaluation, each half-term or term. This is seen in teacher's initial and Long-Term Planning. Planning, evaluation and assessment is supported through the use of the Discovery RE units.

## Teaching and Learning

Class teachers are responsible for their own class organisation and teaching style in relation to Religious Education, while at the same time ensuring these complement and reflect the overall aims and philosophy of the school.

Within any one class, children are given the opportunity to work as a class, as individuals and as part of a group. The choice of class organisation will be determined by the learning task or activity and the resources being used. We promote teaching in Religious Education that is creative and involves open enquiry and first-hand experiences wherever possible.

The syllabus is implemented in school by means of a multi-sensory approach such as:

- looking at and handling religious artefacts
- looking at photographs, posters and books
- visiting faith communities and listening to visiting speakers in school
- listening to and responding to stories and poetry e.g. through drama or art
- using ICT resources

At Sherwood Primary School, Religious Education is taught by individual class teachers and Higher-Level Teaching Assistants. However, the right of any member of staff to withdraw from the teaching of Religious Education is recognised and respected.

## Withdrawal from Religious Education

It is recognised that parents have the right to withdraw their child from Religious Education – in its entirety or in part. If a parent chooses to withdraw their child from Religious Education then arrangements are made for that child to be withdrawn during Religious Education lessons by the class teacher in consultation with the Headteacher.

## Time Allocation

The time allocated to Religious Education follows the recommendations in the Agreed Syllabus document, that each Unit of Curriculum requires an allocation of not less than 5% curriculum time.

As a result of the way in which the curriculum is organised at each Key Stage and in each Year Group, the amount of time allocated to Religious Education in any week may differ. Religious Education may be provided in a 'whole block' or the time may be divided up into smaller sessions. However, over the whole year, class teachers ensure that all children have equal access to the required amount of Religious Education curriculum time.

## Global learning through RE

As well as the opportunity to explore knowledge and understanding about the world, RE also engages our pupils in different ideas and perspectives on it, and whether some approaches might present a partial, incomplete or stereotyped view of particular parts of the world.

In this way the RE classroom becomes an ideal setting in which young people can address the key Global Learning Programme aims, which are to:

- help young people understand their role in a globally-interdependent world and explore strategies by which they can make it more just and sustainable
- familiarise pupils with the concepts of interdependence, development, globalisation and sustainability
- enable teachers to move pupils from a charity mentality to a social justice mentality
- stimulate critical thinking about global issues both at a whole school and at pupil level

- help schools promote greater awareness of poverty and sustainability
- enable schools to explore alternative models of development and sustainability in the classroom.

RE is also central to the key areas of knowledge identified by the Global Learning Programme:

- Knowledge of developing countries, their economies, histories and human geography
- Knowledge of the basic elements of globalization
- Knowledge of different ways to achieve global poverty reduction and the arguments around the merits of these different approaches
- Knowledge and understanding of the concepts of interdependence and sustainability
- Supporting enquiry and critical thinking about development and development issues.

## Assessment and Record Keeping Procedures

By the end of each key stage, pupils are expected to know, apply and understand the matters, skills and processes specified in the relevant programme of study.

Each Class teacher is responsible for recording their pupil's progress against the objectives for that Unit of work. Whether the pupil is below expectations, in line with expectations or exceeding expectations will be recorded at the end of each academic year and passed on to the next teacher. Comments will be made on the end of year report and passed on to parents.

At the end of Key Stage 1 and 2 levels of attainment are recorded and reported to SACRE.

## Special Educational Needs and Disability

The children with Special Needs will have access to the full RE curriculum. Some children may find difficulty on field trips, for example, due to their physical disability or medical needs. Additional support will be given to these children enabling them to take a full and active role. Tasks will also be adapted where necessary so that the children can succeed. Sensitive grouping should also minimise difficulties, combined with a multi-sensory approach.

## Equal Opportunities

There are no presumptions made as to the religious backgrounds and beliefs and values of the children and the staff. We value the religious background of all members of the school community and hope that this will encourage individuals to share their own experiences with others freely. All religions and their communities are treated with respect and sensitivity and we value the links which are and can be made between home, school and a faith community. We acknowledge that each religion studied can contribute to the education of all our pupils.

All teaching and non-teaching staff at Sherwood Primary School are responsible for ensuring that all pupils, irrespective of gender, ability, ethnic origin and social circumstances have access to the whole curriculum and the opportunity to make the greatest progress possible in all areas of the curriculum while in our school.

All children will be encouraged to take an active role in RE activities. Visits to places of worship will be arranged so that all children can take part.

## Health & Safety

Teachers are aware that care needs to be taken when handling artefacts and ensure the safety of all children during all activities.

Visits to places of worship are also part of the RE Curriculum to develop an understanding of how different faiths are practised. When visits are arranged for the pupils they must be well organised and provide a stimulating experience of a high quality. The pupils should prepare well for the visit and use the experience to good effect in the classroom on their return. The visit should be well planned by the class teacher or leader with the safety and welfare of the pupils of paramount importance.

The following Health & Safety issues must be taken into consideration:

1. A preliminary visit should be made by the teacher in charge
2. Parents must be fully informed of any visits outside the school grounds, with consent forms signed
3. All voluntary helpers must be fully aware of the procedures and their areas of responsibility
4. The children must be fully supervised at all times, with extra care taken near busy roads
5. The school policy of 1:6 to be followed at KS2, and 1:4 at KS1.

Please see the visits policy for more detailed information.

## Links with other areas of the curriculum

As well as making its own contribution to the school curriculum, RE contributes to the wider aims of primary education.

### English

With careful planning RE can provide opportunities for children to develop and apply their literacy skills. Reading and writing skills are essential to the enquiry based RE curriculum, when collecting information and source materials, making notes and following instructions. They need to be able to communicate in ways appropriate for the task and audience, for example, writing an opinion to share as a part of a debate. Discussion, drama and role play are aspects of the programmes of study as children develop their understanding of different view-points and perspectives. Evaluating the impact of faith in people's lives requires children to articulate their ideas and to compare and contrast their views with those of other people. Good oral communication skills can be developed as the children collaborate in fieldwork

### ICT

The use of ICT can help children's learning in RE providing access to a wealth of information and experiences. This enables the children to research different faith practices for example. ICT also provides different ways for children to share and present their findings, such as in a presentation or a video.

### History

There are close links between the two subjects. A study into the practises of different faiths can require an understand of the origins of those practises and how such practises has changed over time.

### Geography

Studying different beliefs presents a wonderful opportunity to see where these beliefs began and how faith is celebrated differently around the world.

## Spiritual, Moral, Social and Cultural Development

RE provides opportunities to promote:

**Spiritual development**, through helping pupils recognise the beauty and diversity of the world. An awareness of different faiths will also help children understand their place in, and understanding of, the world. RE provides opportunities for children to learn about different cultures and expressions of faith throughout the world.

**Moral development**, through helping pupils reflect on the choices they make in life and the role that faith may play in such decisions.

**Social development**, through helping pupils to recognise the need to consider the views of others when discussing their beliefs and opinions. Team work will also be important as children present and discuss their thoughts, views and opinions.

**Multicultural development**, through exploring different faiths the children can gain knowledge of different cultures, learning tolerance and understanding of cultural diversity.

## Resources and Accommodation

RE resources are kept in the RE resource room. Children are taught to handle all Religious artefacts responsibly and respectfully.

Resources are replaced and purchased by the coordinator following the general school ordering procedure. Staffs are asked to inform the coordinator of any resources they would like to be added to the store.

The purchase of resources is planned each year by the team based on the RE budget for that year.

## Role of the Subject Leader

The Subject Leader is responsible for helping staff to plan Religious Education for a particular class or year group and monitoring and evaluating the provision for RE in the School. Monitoring and evaluation may take place by means of a number of methods including:

- Looking at children's work
- The analysis of teachers' planning as seen in Long and Short-Term Plans
- Discussion among groups of staff or the whole staff
- Classroom observation

The Subject Leader draws up an annual Action Plan for Religious Education each year. This is in the same cycle as the School Development Plan and so planning is from the summer term to the following spring term. The Action Plan outlines what the Subject Leader plans to do in relation to the RE Policy Scheme of Work, resources, monitoring of Religious Education and includes a detailed budget plan.

The Subject Leader advises class teachers as to how to contact local faith communities with the aim of organizing visits from /to a particular community.

The RE Subject Leader is responsible for maintaining RE resources, and for monitoring their use. The current lists of resources are examined each year before purchases are made. Staff are asked to submit to the RE Subject Leader requests for any resources which they require to be added to the existing stock.

## Monitoring and Evaluation

Monitoring and evaluation will be conducted according to the priority given to RE within the School Development Plan. The timescale involved in the evaluation may differ from year to year. Evaluation is most likely to be on an annual basis but will also have to take account of any changes in the RE Curriculum.

Evaluation and review of the Policy for RE and any schemes of work will take place in line with the School Development Plan.
