(Available on the school website - Remote learning – year 5.)

Complete Section A to identify the correct group of words to fit with the passage.

Complete Section B to answer the comprehension questions, remembering to answer in full sentences.

Theme 5 Time Travel (Non-Fiction Instructions)

How to Operate a Timeship

Introduction
Your ancestors would not believe how personal transport has changed. First there was the horse and cart, then the bicycle, then the motorcar, then the aeroplane, then the spaceship and now we have 'Time Travel' in your very own Timeship.

Local Area Disguise Mode (LAD)
Your Timeship comes looking like an exact replica of a 1981 Classic DeLorean DMC-12. This is to help you blend in with your local Earth environment. However, in your travels across time and space it may be safer to arrive in a vehicle that blends in with the local environment. To do this just hit the button marked LAD on the alternative dashboard and immediately the computer will use cameras to scan the local area, locate a similar sized object, photograph it and then project a similar image across the outside of the body of your Timeship.

How to Enter and Power Up the Timeship
1. Use your personal DNA enabled swipe card to open the doors of the vehicle.
2. Climb inside and strap yourself to the seat.
3. Flick the top of the ordinary looking gear change stick to locate the hidden track button.
4. Press the button to make the traditional instrument cluster rotate to reveal the alternative dashboard.
5. Press the button marked 'Automatic Door Re-Set'.
6. Place your swipe card into the 'Identity slot'.

How to Travel to Another Part of Your Planet
1. Find the 'Set Nav' screen and keyboard on the alternative dashboard.
2. Type in the country you want to travel to.
3. Type in the town or village you want to go to and press the map button. **MB**
4. Locate on the map the exact position you wish to go to.
5. Press the 'Lock Co-ordinates Button'. **LCB**
6. Finally, check everything is strapped down, brace yourself against the footrests and hit the green **GO** button!

How to Travel Backwards and Forwards in Time
1. Use the dashboard keypad to enter the year in time you wish to travel to. Press enter.
2. Next enter the day and month you wish to travel to and press enter.
3. Next, enter the exact time of day you wish to travel to and press enter.
4. Finally, check everything is strapped down, brace yourself against the footrests and hit the green **GO** button!

Emergency Return Button (ERB)
A large red button sits in the centre of the alternative dashboard. In an emergency, strap yourself in, check all harnesses are buckled, power up the nuclear fusion drive and hit the button.
WARNING: UNBELIEVABLE FORCES WILL BE EXPERIENCED. ONLY USE IN EMERGENCY!
You will be immediately returned to your registered home address.

CORE LEARNING TASK FOR MATHEMATICS

Please log on to your Mathletics account and complete the three assigned tasks.

- Mixed to improper fractions
- Improper to mixed fractions
- Mixed and improper fractions.

Write as an improper fraction:

Write as a mixed number:

$$1 \frac{2}{3} = \frac{\boxed{}}{\boxed{}}$$

$$\frac{7}{3} = \boxed{} \frac{\boxed{}}{\boxed{}}$$

KEEPING IN TOUCH

If you have any questions or queries regarding remote learning tasks, please contact your child's class teacher through the email address below.

We invite you to submit photographs of your children's experiences and photographs of completed paper based tasks to:
