KEY VOCABULARY

bank	The riverbank is the land at the side of the river.
bed	The bed is the bottom of a river. A riverbed can be made of sand, rocks or mud.
canal	A man-made waterway that is used so that boats can transport goods across the country.
current	The strength and speed of a river.
downstream	The direction that the water flows, downhill towards the sea.
erosion	A fast flowing river can damage the riverbanks and wash bits of them downstream, making the river wider.
estuary	Where a river reaches the ocean and the river and ocean mix. Estuaries are normally wide and flat.

COMPUTING FOCUS

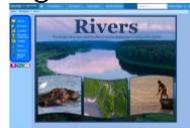

Use espresso coding to complete the Year 4 Starter Unit. The unit has 6 lessons to complete all based on block coding. This is very similar to our work on Scratch but with a different interface. Complete as many of the 6 lessons as you can.

GEOGRAPHY FOCUS

Use the resources on Espresso to recap our learning of rivers. Create an information page about rivers. This can include:

- How rivers are formed
- Rivers around the world
- The stages of a river

If you go for a walk and see a river or stream take a photograph and send it to year4@sherwood.lancs.sch.uk
