

YEAR 5 REMOTE LEARNING PLAN

Core Learning Tasks for Tuesday 5th May 2020CORE LEARNING TASK FOR ENGLISH

This week, we will be exploring the story of 'Danny, the Champion of the World' by Roald Dahl. We will read sections of the book and then respond to it using a variety of tasks, investigating the characters and how we feel about each of them.

If you have a copy of the text at home please use this, otherwise a full online version can be found at [http://bigben-club.com/wp-content/uploads/Danny the Champion of the World - Roald Dahl.pdf](http://bigben-club.com/wp-content/uploads/Danny_the_Champion_of_the_World_-_Roald_Dahl.pdf)

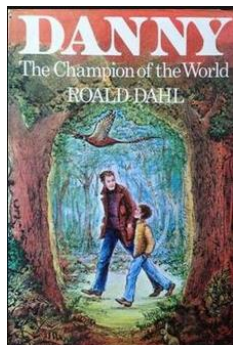

To begin with, read chapters 1 to 3 of the book and make notes of any vocabulary that you are unfamiliar with. Use wordhippo.com to help and write a definition for those words in your Remote Learning book.

You may also listen to the chapters being read at <https://www.audiobooks.co.uk/book/stream/200422>

Once you have read and possibly heard the chapters, talk to an adult about what you have found out about Danny. Think about whether he is a rich or poor child, using evidence to back up your opinions. Is he a happy child?

TASK

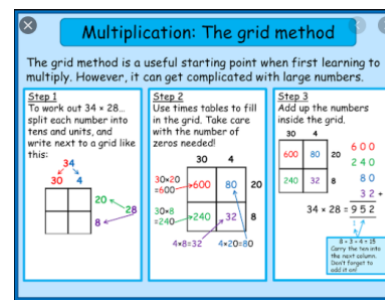

Based on what you have read, and using words and phrases from the text, can you create character profiles for both Danny and his father? Illustrate them in the style of Quentin Blake if you wish. You could use subheadings such as: appearance, personality, relationships etc.

CORE LEARNING TASK FOR MATHEMATICS

This week we will be moving on to reminding ourselves of the grid method for multiplication, particularly looking at multiplying two, two digit numbers and larger.

Log onto <http://www.bbc.co.uk/bitesize/articles/zrwfvk7> and watch the daily lesson home learning focus on multiplication calculations involving two 2-digit numbers using the grid method.

Complete the two activities in the 'practise' section - the task and then the game. Then log onto Corbett math's, <http://www.corbettmaths.com/wp-content/uploads/2018/01/multiplication-2-pdf.pdf> and complete questions 1 a-d and 2 e-h – use the grid method to solve.

KEEPING IN TOUCH

If you have any questions or queries regarding remote learning tasks, please contact your child's class teacher through the email address below. We invite you to submit photographs of your children's experiences and photographs of completed paper based tasks to:
