

YEAR 5 REMOTE LEARNING PLAN

Core Learning Tasks for Thursday 7th May 2020

CORE LEARNING TASK FOR ENGLISH

Continuing our theme for this week, we will be exploring and reading the story of 'Danny, the Champion of the World' by Roald Dahl. We will read further chapters of the book and then respond to it using a variety of tasks, investigating one of the themes that we encounter and how we feel about the characters involved.

If you have a copy of the text at home please use this otherwise a full online version can be found at [http://bigben-club.com/wp-content/uploads/Danny the Champion of the World - Roald Dahl.pdf](http://bigben-club.com/wp-content/uploads/Danny%20the%20Champion%20of%20the%20World%20-%20Roald%20Dahl.pdf)

You may also listen to the chapters being read at <https://www.audiobooks.co.uk/book/stream/200422>

Further to previous work, begin by reading chapters 4 and 5, if possible aloud to an audience. Don't forget to use a clear voice with appropriate pace and try adding some expression.

Use questioning to understand what you have read,

- What is Danny's dad's secret?
- How do you think Danny feels about his dad's secret?

Once you have read and possibly heard the chapters, explore the website, <https://easyscienceforkids.com/all-about-pheasants/> to find out more about this colourful bird.

TASK

Imagine that you have been asked to design a poster to feature in a new hunting magazine. The poster is to advertise the ways in which to poach pheasants. Create a poster which details an explanation of the two methods Danny's dad describes for how to catch a pheasant. Make your poster attractive by including images, an exciting title and words and phrases from the text.

If you are feeling really creative, you could also include an additional method for poaching pheasants which you have invented!

CORE LEARNING TASK FOR MATHEMATICS

This week we will continue to remind ourselves of the grid method for multiplication, particularly looking at multiplying two, two digit numbers and larger.

Log onto the Corbett math's site at

<http://www.corbettmaths.com/wp-content/uploads/2018/01/multiplication-2-pdf.pdf> and complete question 3 (a-d.) Then scroll to page 2 (the APPLY questions looking at word problems using multiplication.)

Please complete questions 1 to 10, remembering to show your working out. Include pictures to help you work out the problem if needed.

KEEPING IN TOUCH

If you have any questions or queries regarding remote learning tasks, please contact your child's class teacher through the email address below.

We invite you to submit photographs of your children's experiences and photographs of completed paper based tasks to:
