

CORE LEARNING TASK FOR ENGLISH

Please watch today's video and produce your chosen piece of writing, based on 'Peter and the Wolf'. Remember, your options are:

- a diary entry from Peter's point of view;
- retell the story (set out like a story in paragraphs rather than a poem in verses);
- an eyewitness report from someone who saw everything that happened.

When you have finished, please send us a photo of your work on SeeSaw, and complete the attached marking ladder. Please show us that you are able to apply these Year 4 writing skills.

CORE LEARNING TASK FOR MATHEMATICS

Place Value - Rounding

Henry says, "747 to the nearest 10 is 740."

Do you agree with Henry? Explain why?

Today we will be thinking of some key questions:

- When we are rounding a number to the nearest 10. What can we use to help us? Are we confident with our multiples of 10?
- How can we apply rounding to the nearest 10 to rounding to the nearest hundred? Thousand?

Watch today's video input.

Now try the following activity as a warm up for rounding to 10, 100 and 1000 activity as a warm up:
