Spring Test 8

Questions, Answers and Topic Information

Read the following instructions or press 'play' ▶ and listen to the instructions being read from the CD-ROM.

Listen carefully to the instructions I am going to give you. When I have finished reading them, I will answer any questions. You will not be able to ask any questions once the test has begun.

I am going to ask you 20 questions. On your sheet there is an answer box for each question, where you should write the answer to the question and nothing else. You should work out the answer to each question in your head, but you may jot things down outside the answer box if this helps you. Do not try to write down your working because this will waste time and you may miss the next question. For some of the questions, important information is already written down for you on the answer sheet.

I will read each question twice. Listen carefully both times. You will then have time to work out your answer. If you cannot work out an answer, put a cross in the answer box. If you make a mistake, cross out the wrong answer and write the correct one next to it. There are some easy and some harder questions, so do not be put off if you cannot answer a question.

Now pause, or press 'pause' ❚❚ on your CD player or computer. Ask the children if they have any questions. Once you have answered all the questions, read out the following instructions. Alternatively, play the audio recording from the CD-ROM.

▶ **Now we are ready to start the test.**

		Answer	Topic
For this group of questions you will have 5 seconds to work out each answer and write it down.			
1	Add ninety-two to twelve.	104	AS
2	Subtract thirteen from fifty-two.	39	AS
3	What is nine multiplied by five?	45	MD
4	Which month comes before May?	April	M
5	Look at your answer sheet. What number is written in Roman numerals?	36	NPV
6	Look at your answer sheet. Draw an arrow on the number line to show the position of two point three.	1.9 ⬇ 3.2	NPV/Dc
7	Halve one thousand and twenty.	510	MD
8	Look at your answer sheet. Circle the rhombus.	◇	PS
9	Count on three tens from one hundred and ninety-two.	222	NPV
10	What is double seven point three?	14.6	MD
For this group of questions you will have 10 seconds to work out each answer and write it down.			
11	What is one-quarter of twenty-four?	6	F
12	Write twenty to eleven as it would appear on a twelve-hour digital clock.	10:40	M
13	Divide forty-five by five and then add twenty.	29	AS/MD
14	Look at your answer sheet. Circle all the multiples of two.	744 and 938	MD
15	A beach ball costs two pounds twenty-nine. If Sally saves fifty pence a week, how many weeks will it be before she can buy one?	5	MD/M
16	Look at your answer sheet. What fraction of the shape is shaded?	$\frac{3}{7}$	F
17	Dan runs for two hours a day for two weeks. How many hours does he run for?	28	MD/M
18	The difference between a number and twenty-three is ten. What could the number be?	13 or 33	AS
19	Look at your answer sheet. Circle the smallest number.	$\frac{1}{5}$	NPV
20	Look at your answer sheet. What number comes next in the pattern?	125	NPV

Now put down your pen or pencil. The test is finished.

NPV = Number, place value   AS = Addition and subtraction   MD = Multiplication and division   F = Fractions
Dc = Decimals   M = Measurement   PS = Properties of shapes   PD = Position, direction
