

## Principles of Science at Sherwood Primary.

### **We know great Science teaching and learning is happening when .....**

*Our Science lessons are fun and exciting.*

*We ask questions and come up with our own investigation ideas.*

*We are given opportunities to ask lots of inquisitive questions encouraging critical thinking.*

*We are engaged, motivated and enthusiastic about the topics we investigate.*

*We explore and use a range of equipment and materials for an investigation both indoors and outdoors.*

*We regularly learn and use a range of scientific vocabulary.*

*We work collaboratively.*

*Science is linked to other subjects.*

*We explore and discover in an open-ended way.*

*We develop the concept of what being a scientist is like.*

*We are encouraged to present our observations in a variety of ways.*

*We meet and learn about real scientists.*
